

Lithium-ion Battery | Production Enhancements.

Praxair Surface Technologies has been improving the production process to make lithium-ion batteries for nearly 5 years. Our surface treatments protect lithium-ion production equipment and improve product quality by retaining the original desired surface characteristics. Our customers are benefiting from productivity gains, quality stability, and lower maintenance costs. Please contact us, so we can help you reduce any production and/or quality challenges you may be experiencing.

Separator Films

- Best gravure rolls
- Long lasting slot-dies

Mixing

- Long lasting blades
- Reduced contaminants

Electrode Coating

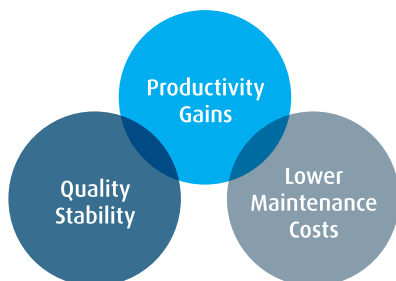

- Best gravure rolls
- Long lasting slot-dies

Calendaring

- Best press rolls
